President and Chief Executive Officer, WellStar Health System

Paul R. Hinchey

MD, Chief Operating Officer, University Hospitals

Shireen Ahmad

System Director, Operations and Finance, CommonSpirit Health

Disruption & innovation are constant in healthcare.

Healthcare has never been static – disruption and innovation are constants. The continual challenges and changes demand industry leaders exchange best practices and ideas to improve care, enhance operational efficiency and address financial setbacks. Regardless of the changing climate, Becker’s Healthcare remains committed to facilitating these conversations. There will be 200+ elite hospital and health system speakers discussing topics such as diversity, value-based care, financial stability and academic medical centers. You will surely remember this conference with keynote speakers like former MLB player Alex Rodriguez, Intermountain Healthcare President and CEO Rob Allen, and UCSF Health President and CEO Suresh Gunasekaran in attendance.

Becker’s 11th Annual CEO + CFO Roundtable plans to return to the Hyatt Regency in Chicago. Join executives from Stanford Health Care, Geisinger, Atrium Health and Intermountain Healthcare, among other leading organizations, for panel discussions and keynote interviews covering the most pressing issues facing hospitals and health systems today. Along with the in-person program in Chicago, we will also have a virtual component for those hospital and health system attendees who would prefer to attend from the comfort of their office or home.

Join us for this important annual event, whether in person or from a distance.
